SCHOOL NEEDS ARE OUTLINED BY TRUSTEES

The Board of School Trustees has called a special election to pass on a bond issue of \$12,500 for several purposes. At the request of the editor the trustees have prepared a statement telling of the plans which they wish to carry out with the funds asked. The election will be held on Monday, June 15, the polling place being at the school building. The trustees' statement follows:

The Board of School Trustees has called for an election to vote school bonds to the amount of \$12,500. This money is to be used for several purposes, as follows:

First, an assembly room that will accommodate the whole school.

Second, a cottage building for Household Economics.

Third, two small cottages connected by a pergola to accommodate the first grade, primary and children who may wish to attend a kindergarten, which department is to be established.

Fourth, a small building for manual training connected with which will be several shower baths for the boys.

Fifth, to furnish the four departments above mentioned with the exception of the manual training.

Sixth, the installation of newer and more sanitary toilets.

Seventh, grading the grounds back of the building so that they may be the better used for the athletic exercises of the school.

Eighth, drinking fountains of the most modern sanitary construction on different parts of the grounds.

There are several other purposes for which money could be used to advantage in giving us a complete educational plant for our town, but it is doubtful if there will be money enough from this issue of bonds to accomplish more than the above. Fortunately we do not have to support a high school. Citizens should, therefore, be willing to spend enough to maintain the most complete primary and grammar school possible. Heretofore, our school has been lower than that of most districts of this size in the county.

Manual training and sewing were introduced four years ago; but it has now become necessary, if our school is to equal in efficiency many others in surrounding towns to maintain a department of household economics. This will not only embrace cooking and a more complete course in sewing than is now given, but will also provide for our girls from the fifth grade up through the eighth as much of the science and art of household economics as time will permit. This embraces the whole range of housekeeping, including care of the house, cleanliness, sanitation, economy of expenditure, purchasing, and food values, etc.

To complete the system, a kindergarten is needed and has been contemplated for several years by the trustees as soon as it was believed there was a demand for it.

The assembly room is needed not only to accommodate the whole school in general exercises and for indoor gymnastics, but also as a neighborhood center for any gathering of public interest. In fact, the law demands that the school building shall be thrown open for many purposes that are of community interest. No extravagance is contemplated by the board. The assembly room will be on the same level as that of the present school rooms and will be connected with them by a covered bridge. So far as possible it will be so constructed as to make it an open air pavilion in warm weather and will be of one story with the beamed ceiling exposed, thus saving the cost of plastering.

The other buildings will be of the cottage plan, the primary and kindergarten rooms so constructed as to make it possible to convert them into open air rooms during pleasant weather. A small building located by itself is necessary for the woodwork in order that the noise may not interfere with the regular school work. This will be as plain as possible and will be left unfinished on the inside, at least for the present.

Complaint has been made of the existing toilets. They are of antiquated construction, but they have not been replaced by more modern ones because of a lack of funds. It is now hoped that we may remedy this condition.

Every school in these days of progress should have several shower baths both for boys and for girls. Education has to do not only with the mental but also with the moral and physical training of the child. Spencer places the physical first; and it is without doubt the most important, for without proper physical health and the power to earn a living both the moral and the mental nature suffer.

It is with the ends in view that have been enumerated above that the bond election is called. With the money thus provided, the trustees believe a fair beginning may be made toward an

SHERMAN CLARK

A very pretty wedding was solemnized at the residence of Mr. T. M. Sherman on E. Alegria, on Saturday evening at 6 o'clock, when his daughter, Lillian Mildred Sherman, became the bride of Merton Hart Clark, Rev. W. H. Hannaford, officiating. The living rooms were beautifully decorated with asparagus plumosus fern and pink roses, and in the library where the ceremony was solemnized was a lattice gateway of ferns and roses, over which hung the wedding bell of orange blossoms. In the dining room, where a delicious buffet supper was served later in the evening, the color scheme was yellow and white—yellow corymbis and white shasta daisies being used. Miss Muriel King of Edendale sang "Beloved, It Is Morn," preceding the ceremonies, and Mr. Sherman Schoonmaker, cousin of the bride, played Mendelssohn's Wedding March. As the first strains of the march sounded six young ladies, the Misses Janson, Tribble, Preston, Caley, Myrtle Preston and Maybelle Caley, dressed in white and wearing corsage bouquets of pink Cecil Bruner roses and ferns, marched in bearing chains of smilax and carnations, which formed the aisle through which the bridal party passed. The bride was attended by Miss Ruth Sparks as maid of honor. The latter was beautifully gowned in pink silk crepe de chine and carried a shower bouquet of pink sweet peas. Mr. Roydon Pool acted as best man. The bride looked charming in a gown of white meteor crepe and cream shadow lace, with sea pearl trimmings, and carried a shower bouquet of white sweet peas. After the ceremony the bride and groom received congratulations and the bride and bridesmaid threw their bouquets among the guests in the old time way of deciding who will be the "next." Later in the evening Mr. and Mrs. Clark slipped away for a short wedding trip. The bride, a very charming girl, has been a resident of Sierra Madre for three years, and the groom, also popular in the younger set, is not only a native son of California, but of Sierra Madre. Both have many friends who extend to them their heartiest wishes for a happy future. Besides the immediate family guests from out of town were: Mr. and Mrs. J. M. Schoonmaker and Howard Schoonmaker, Mr. and Mrs. Randall H. Hewitt, Miss Sue Hewitt, Judge and Mrs. Leslie R. Hewitt, Mrs. Ida Nelson and son and daughter, Mrs. S. Lamor, Mrs. Sam Cohn, Mrs. and Miss Colgan, Mr. Rudolph Brunet of Los Angeles, Miss Sarah Andrews of Highland Park, Miss Marguerite Anderson of Long Beach, Miss Muriel King of Edendale.

HELPS FOR LAWYERS

Among the new legal publications of importance is "Montgomery's Manual of Federal Practice and Procedure," by Charles C. C. Montgomery, B. A., L. L. B., from the press of John Byrne & Co., Washington, D. C. The author is none other than Sierra Madre's city attorney, "Instructor, Equity Jurisprudence, Equity Pleading and Federal Procedure, College of Law, University of Southern California, formerly Professor Constitutional Law (Creighton University, Omaha, Nebraska)," according to the title page of the book. It is a handbook of a mere 1050 pages, printed on Bible paper and bound in flexible morocco. It is primarily for the edification of lawyers who want to know what to do and how to do it when they have business before the federal courts. Citizens of Sierra Madre who think the book would make a handsome and fitting decoration for the parlor table can obtain a copy by remitting six and a half to the publishers.

VACATION IN SIERRA MADRE

Mr. and Mrs. Benjamin Scovell and two children of Los Angeles have come to Sierra Madre for a stay of several months. Mr. Scovell is well known as an actor and dramatic instructor in Los Angeles and elsewhere. He came to this country from England with Sir Henry Irving's company and has visited almost every part of the world either as an actor or as a newspaper correspondent. On Wednesday evening he gave a reading of "The Sign of the Cross" at the Stillwell Hotel in Los Angeles, his program being supplemented with songs by Mrs. Robert Fowler, a soprano who was connected with the Savage Grand Opera at a time when Mr. Scovell was press representative of the organization.

SIERRA MADRE 5, TROPICO 6

Sierra Madre dropped to second place in the Southern Association Sunday by losing a hard-fought game to Tropico. Score 6 to 5. The visitors scored six runs on four hits and loose playing by Sierra Madre. Then the locals tightened up and batted in five runs, but couldn't put the tying run over. The game was featured by Gabage's catch of N. Olsen's line drive in the fourth inning. The local team meets the Sycamores Sunday. This team played a 4-4 tie game with Sierra Madre on April 5.

ideal grammar school. The public will have the satisfaction of knowing that our money will not be wasted on mere brick and mortar but will all be used with the strictest economy for the purposes of the training of our children.

BOARD OF SCHOOL TRUSTEES.

GROWTH IS PROVED

More Meters in Use in Sierra Madre Than at Any Previous Time

That Sierra Madre is enjoying a steady growth and now has a considerably larger number of families residing here than ever before is shown conclusively by the meter records of the Southern Counties Gas Company and of the Water Company. There are this week 438 gas meters in actual use in Sierra Madre, an increase of about 65 in the past twelve months. There are 580 water meters in use, an increase of about 50 in the past year.

These figures show conclusively the fallacy of the argument that Sierra Madre is in a bad way as shown by the large number of vacant houses. Every person who has a grievance or a grouse to air proves his contention that the town is going to the dogs by talking about empty houses. No matter what his trouble may be, those houses are declared to be empty for that reason. If Sierra Madre has a number of empty houses a little investigation will prove that the fact is in nowise due to local conditions. The same is true of every other town, and particularly Los Angeles and Pasadena. A large proportion of the Los Angeles apartment houses are said to be unable to keep up their rents. In the larger cities the vacant houses and apartments are not ascribed to hard times or to over-building, but to the falling off in the number of tourists this year in anticipation of an increase during the world's fair year.

Returning to the showing of the meter records, there is probably no more accurate gauge of increase or decrease in population. Practically all houses available for transients are piped for gas. Practically all the tenants use gas, having it turned on promptly when they move in and turned off when they leave. The minimum charge of \$1 a month whether gas is used or not prevents landlords leaving the meter in when the house is vacant. This does not hold true of water meters, for landlords have been known to keep the water turned on for the sake of watering plants and trees when the house was not tenanted.

No distinction is made in the records of the gas company to show what proportion of the meters added during the past year have been in new and old houses. But practically every new water meter represents a new house. The figures both as to total and as to increase are most gratifying and should serve to stop a lot of calamity howling that has been heard of late.

ON SCHOOL BUILDING

Timely Advice on the Housing of Public Schools in California

"School Architecture in California," a helpful book for trustees and others interested in the building of school houses, is now being sent out to the superintendents and other school officers of the state by Superintendent Edward Hyatt at Sacramento. It contains a large number of illustrations and many interesting hints and suggestions. The following extracts will give an idea of its spirit:

"During the school year 1913 there was set aside and expended in this state for new buildings the sum of \$7,372,215.18. This was distributed over kindergartens, elementary schools, high schools, and normal schools. Hence, the importance to the state of obtaining not alone the highest practical results, but also the best designs and architecture.

"In building schoolhouses, the school board should well consider what it owes to the community in the way of protection from fire and panic. The school board is responsible for seeing that all buildings are fireproof, all new buildings fireproof and all old buildings fire-retarding. The terrible Collingwood fire in 1908 burned 173 children and two teachers to death—a terrible, a heart-rending tragedy. How would you feel if you were the trustees in like case?

"'Tis true that we can not spend too much money upon our children. Undoubtedly money spent upon the better training of its young people is a good investment for any municipality, one that returns to the community many times and in many ways.

"Yet this should not make an occasion for prodigality or for unwise expenditures. It is quite possible to spend great sums that do not really benefit the children, that the children do not need. It is to spend the money that some one else must pay. It is such a simple matter to vote a hundred thousand dollars in bonds payable twenty or thirty years hence that thirty people should take warning and should look somewhat forward in the future. These bonds must not be paid. Moreover, they must not only be paid, but they must be paid twice over, since in less than twenty years the interest exceeds the principle. Worse still, in less than twenty years a schoolhouse grows old, inadequate, out of style. The architecture of today is the amusement of tomorrow."

PINE TREE PICNIC

The Pine Tree State Association of Los Angeles, consisting of former residents of the state of Maine and their families, will hold its annual picnic at Eagle Rock Park on Saturday, May 23, to which is invited every son and daughter of the Pine Tree State. There will be a social gathering at 10 o'clock, and basket picnic during the noon hour. Everybody will provide generous baskets for themselves and friends and should bring such dishes as they may require for themselves. Coffee will be provided by the association.

At 2 o'clock the program of music, readings, speeches, etc., will entertain the audience. Leading vocalists from the State of Maine will provide music, which is being arranged by Mrs. Louise M. Bitter. Original poems will be read by Hon. Waldo M. York, and Dr. O. T. Fellows, president of the Pasadena Maine Society. Short addresses by prominent speakers of Southern California, who are native sons or daughters of the Pine Tree State, will be made by Mrs. Florence Collins Porter, Judge Frank S. Forbes, Mrs. Eliza Tupper Wilkes, Gen. James Donovan, Rev. Dana W. Bartlett, and Rev. Dr. David J. Higgins, now in his ninety-seventh year.

Take yellow Eagle Rock avenue cars on Main street and go to the end of the line.

HOME OF TRUTH

Devotional services held at the Home of Truth, corner Auburn and Carter, Sunday at 3:30 p. m. Services conducted by Harriet C. Hamor, Sunday school at two o'clock. All are cordially welcome at all services.

The following "Home of Truth" literature has been contributed to the public library, where it may be found by those interested:

A subscription to the "Master Mind Magazine," a monthly magazine edited by Annie Rix Millitz; "Sermon on the Mount," interpretation by Annie Rix Millitz; "Spiritual Housekeeping," by Annie Rix Millitz; "Primary Lessons in Christian Living and Healing," by Annie Rix Millitz.

CONGREGATIONAL CHURCH

Sunday morning's sermon theme will be "The Church." In the evening the subject will be "The Great Invitation." The girls are decidedly in the lead in the contest for new members in the Sunday School. Get busy, boys.

Attendance at the mid-week service has been much larger than usual of late. You miss something worth while if you do not attend.

Do not forget the social at the church parlors this evening.

W. H. HANNAFORD, Pastor.

CONTEST OVER SANITARIUMS GROWS WARM

Agitation of the sanitarium question goes merrily on. But there is not much real merriment about it except for the disinterested spectators—who are scarce. Not many have been able to avoid being drawn into the contest to some extent, whether they wished it or not.

Principal developments of the week have been the formation of an organization to support the restrictive ordinance and the starting of referendum proceedings aimed to bring the ordinance to a popular vote.

The referendum petition is circulated by advocates of the sanitarium. At the same time the petition asking that the ordinance be sustained has been circulated further by those opposing sanitariums. Both sides have been endeavoring to obtain signatures of a majority of the registered voters in order to make a referendum election unnecessary. Whether either side will succeed in this respect seems doubtful, but there is no doubt of enough signatures being secured to order the referendum election.

Tentative organization of those who believe sanitariums will be a detriment to the town has been formed with H. O. Vogel chairman of the organization committee. A meeting has been called for next Monday evening in the City Hall to effect permanent organization. On another page of the News the organizers publish an advertisement giving an idea of the scope of their plans. Theirs is not merely a negative program of opposition to sanitariums in Sierra Madre but proposes definite measures which the members believe will work to the benefit of the town as a whole and of the individuals most directly concerned, namely, the health seekers.

Personalities have entered into the agitation to an unfortunate extent. It is regrettable that matters of interest cannot have active discussion without a questioning of motives and the bringing in of matters entirely personal and irrelevant. Misrepresentations are alleged by both sides against their opponents. To correct misstatements of facts even in the interest of fair play brings down the curtain and sudden wrath of one side or the other, making the persons offering the correction about as popular as a baseball umpire.

Referring the ordinance to popular vote is probably the only method of settling the question permanently. But it is unfortunate that the length of time required to elapse before an election can be called will serve to prolong the agitation for several weeks.

THE EPISCOPAL CHURCH

Church of the Ascension, the Rev. Dr. Geo. H. Cornell rector. Vested choir. Sunday after Ascension. Sunday school 9:45 a. m. Morning prayer and sermon 11 a. m. All are cordially invited.

SOCK SOCIAL TONIGHT

This evening in the parlors of the Congregational Church will be held a "Sock Social," under the auspices of the Ladies' Aid Society. Each guest is provided with a miniature sock in which to bring an admission fee in pennies numbering twice the size of the sock usually worn. A varied program of music and readings will be given and refreshments will be served.

WOMAN'S CLUB NOTES

A lawn fete beginning at 2 o'clock will be held Saturday afternoon on May 23 at the home of Mrs. T. H. Graham on North Sierra street.

A varied program will be offered to add to the pleasure of an afternoon spent on these beautiful grounds.

Mother Goose with several of her children will give part of the program; wandering minstrels and flower girls may be seen strolling about the grounds and orchestral music will be heard.

Ten and waffles, ice cream and cake, and home made candies will be served. The regular afternoon meeting of the club will be held Monday, May 25 when the election of officers will take place. The program will be given by Mrs. W. E. Keepers of Alhambra who is an active member of the Ruskin Art Club.

Monday when Mrs. F. J. Hart of the Villa entertained so delightfully at luncheon the retiring and incoming officers and boards of directors a resolution was passed to form a Down and Out club patterned after the famous state organization of that name. This organization will be composed of the present club officers who retire in June and of all future retiring officers.

Mrs. Frank Wright was asked to be the first president and Mrs. Minnie Kimball the secretary.

Dr. and Mrs. Chandler of Los Angeles, accompanied by Mr. and Mrs. William Hackney of Delevan, Ill., and Mrs. Hackney of East Hollywood motored to Sierra Madre on Tuesday and spent the day with Mrs. A. M. Carey.

An Interesting Book.
A French marquise whose country house is crowded with guests during the hunting season hit upon the original idea of placing a register at the disposal of her visitors in which to record their desires and criticisms. The pages of the richly bound book soon began to be covered with notes such as:
"Count de R. still owes 25 louis. He knows to whom."
"The green peas yesterday were burned."
"Baroness M. flirts—unfortunately not with me."
The marquise has withdrawn the register.

Jewels of London's Lord Mayor.

The gold chain and jeweled insignia of the lord mayor of London are among the most wonderful ornaments in the world, being composed of pure gold and adorned with an enormous number of diamonds. Their value has been estimated at not less than £120,000. Every lord mayor, before he is elected, is called upon to enter into a bond for their safe custody during his term of office, and before he resigns the insignia at the close of his mayoralty they are most carefully examined by special jewelers in order to see that during the year's wear its diamonds have not been loosened in their holdings and that his successor may wear them without anxiety. No wonder that when the lord mayor is wearing all the insignia of his proud position he is a special object of attention by a special police guard.—London Saturday Journal.

Thunder.
When clouds are driven past one another by wind currents electricity of a frictional kind is produced. Lightning is caused by the passing of the electricity between the two clouds or from a cloud to the earth. As it travels it expands and drives the air in front of it. When the lightning has passed the air that was driven away returns with a rush, and it is this rush which causes the noise of thunder.—Pearson's Weekly.

Vacation Time

Will soon be here. We have four pieces of property which must be sold before that time and have been authorized not to decline any reasonable offer. There is a good 50-foot lot, a five-room modern bungalow (furnished and now rented \$26.25 per month), a six-room plastered, furnished house, and a pretty 3-acre piece.

One of these is your opportunity!

We also have exchanges in Long Beach, Hermosa, Redondo, Huntington Beach and Los Angeles, offered us for Sierra Madre. Better look some of them up.

Support the Ordinance

Creating a Six Thousand-Foot Limit for the Exclusion of Sanitariums in Sierra Madre City

The opening of El Reposo does not mean "segregation." It means undesirable advertising of the city for the financial benefit of interested parties only. The opposition to the sanitarium is not part of a hostile movement against "sick people." Any health seeker coming to Sierra Madre to make a home is welcome. But we object to any institution commercializing the situation.

Let us make the city attractive by establishing reasonable building restrictions, protect the beautiful mesa land from sanitariums, and encourage home seekers to locate here. Consider the interests of our home people whose investments and efforts have helped to beautify Sierra Madre.

The Ordinance does not interfere with boarding houses.

Help in the solution of Sierra Madre's "tubercular problem" among the unfortunate by aiding the work of the local Helping Station; also Dr. Stehman's Sanitarium which is located 4 miles west of Sierra Madre, a real philanthropy that has assisted Sierra Madre by taking patients unable to pay for treatment. Both deserve support.

As this matter will likely be submitted to the voters of Sierra Madre through a referendum petition it is urged that every voter who has not registered to do so at once, to enable them to vote on this important question.

PROMINENT CLUB WOMEN OF WASHINGTON VISITORS IN SIERRA MADRE

Mrs. Z. S. James and daughter, Miss Eunice James of Washington, D. C., were guests in Sierra Madre from Saturday to Tuesday. While here they were entertained at the home of Louis Dietz, securing data appertaining to Mrs. Elizabeth Stockton Dietz who is a direct descendant of Richard Stockton, one of the signers of the Declaration of Independence, and Commodore Samuel Davison, who in June, 1776, received his commission of Commodore of the Pennsylvania Navy. Upon the signing of the Declaration of Independence on July 4th, 1776, the fleet was turned over into what later became the basis of the American Navy.

In the genealogical sketch of Commodore Davison by John Clogett Proctor, Washington, D. C., 1910, appears the following: "Lizzie S. (intended for

Elizabeth Stockton Dietz), daughter of Rachel Stockton Davison, who married, first, William Kromer, second, Louis Dietz, residing in Sierra Madre, California." This places Mrs. Dietz in line for admission into the D. A. R., which Mrs. James is anxious to accomplish.

After the return of Mrs. Dietz from the east next Sunday, Mrs. James and her daughter will again visit Sierra Madre and be entertained by Mrs. Dietz.

The following, with their pictures, appeared in the Los Angeles Express of Tuesday, 19th inst.:

Mrs. Z. S. James and daughter, Miss Eunice James, prominent in Washington social circles and members of the most exclusive women's organizations in the Capital city, are in Los Angeles for a visit of several weeks, guests at the St. James hotel. When their stay here is concluded they will go to San Diego for an indefinite sojourn.

Mrs. James, whose titled English ancestors distinguished themselves in various ways, is a descendant of James Steele, founder of the city of Hartford, Conn., and a cousin of General Rosecranz, for whom Fort Rosecranz, San Diego, was named. Another illustrious relative was Governor A. P. Swineford, the first governor of Alaska.

A member of the Mayflower society, the Society of the Colonial Dames and of the Daughters of the American Revolution, Mrs. James comes to California highly endorsed by officials of the General Federation of Women's clubs and will be entertained before her departure by various local organizations. At the 1915 exposition she probably will represent the National Genealogical society of Washington, D. C.

Good morning—have you any petti-
tions you would like to have signed
today?

What Schools are For—

Announcement of the school trustees
that they wish to install shower baths
indicates a different ideal for school
service than that entertained by a San
Francisco mother. Her young son
came to school so dirty of face, hands
and clothing that he was given new
garments and sent home with a note
saying that he must be renovated. The
mother's reply came back: "Johnny
hain't no rose, don't smell 'im, lurn
'im."

A Drug on the Market—

Keep your temper, son, nobody else
wants it.

It Will Work in California—

Ten states having a Red Light
Abatement law report good results.
The California law was patterned after
the Iowa law but was held up by re-
ferendum inspired by owners of prop-
erty which rents more profitably for
immoral purposes than for legitimate
use. The law will make these owners
liable if the business is continued in
their property, hence their alarm. Trust
funds held by banks and trust com-
panies in San Francisco and other
cities are said to be invested in prop-
erty housing some of the most notori-
ous resorts. Hence some opposition
coming from unexpected quarters. But
the people of California will put that
law on the books for keeps.

Advertising Pays—

If your competitor talks about you,
put him on your payroll. Never mind
what he says, so long as he talks.

Get Satisfaction—

Any fire eating American who feels
outraged at "Mexican insults to the
flag" is at perfect liberty to spend a
few cents for a Mexican flag, take it
out in the back yard and spend a half
hour stepping on it and otherwise "in-
sulting" it. That will help pass the
time until the Niagara peace confer-
ence has arrived at some definite
results.

Take Your Choice—

In his none too frequent period of
sobriety Huerta is said to be sullen
and gruff, but jolly and bluff when he
is full of pulque. On the other hand,
Villa violates all traditions of brig-
andage or Mexican military leadership
by eschewing all intoxicants. Wonder
what slur Huerta's jolly comrades have
to correspond to the mention of Bryan
and grape juice together.

Human Toll—

Hundreds, yes, hundreds, of Amer-
icans have been killed within a few
weeks in the mines of West Virginia
and Colorado. What if that number
had been blown to pieces at Vera Cruz?
Flags all over the country would have
been at half mast while eulogies fol-
lowed them to the grave. War would
have been on in earnest. But they
were mere earners and died a common-
place death largely as a result of pre-
ventable accidents or unnecessary in-
dustrial quarrels. The country has
been so busy watching Mexico these
horrors at home get scant attention.
—G. B. M.

CONNIE MACK'S METHOD

Connie Mack is probably the great-
est baseball manager yet seen. Dur-
ing the past thirteen seasons his Phil-
adelphia Americans have won five
league pennants and three world's
championships. His knowledge of the
game and his ability to develop great
players have been the subject of
countless newspaper and magazine
stories. Some have pretended to think
they could analyze his success, and
some have been almost ready to credit
him with some occult power.

In McClure's Magazine for May
Henry Beach Needham has one of the
most interesting articles yet written.
It's interest lies in the fact that it con-
sists largely of quotations from Mack's
own remarks regarding his methods.
It is significant that Mack emphasizes
the value of total abstinence in aiding
the quick thought and action without
which no ball player can succeed. All
his world's championships were won

on that basis. Among other things he
says:

"Who puts the ball player out of the
game? You would naturally say, 'the
umpire,' wouldn't you? All the umpires
together haven't put as many ball
players out of the game as Old Man
Booze!"

"Now, don't get off on the wrong
foot. Boozing is not common among
the high grade ball players. It was
common twenty years ago; but today
it is rare in the majors — boozing.
Keep in mind, though, that steady—
'moderate'—drinking gets a ball player
in the end just as sure as boozing.
Alcohol slows a man down inevitably,
and slowing down is the reason for the
shelving of by far the majority of
players. If you estimate a clever play-
er's years in baseball at fifteen, why,
'moderate' drinking will cut off from
three to five years—a third of his life
on the diamond."

There is no particular use of com-
menting on what Connie Mack says
about liquor. He probably knows more
about what makes and unmakes base-
ball players than any other man alive.

That, of course, will not prevent
some apologist for alcohol from telling
how necessary a little drink is in vio-
lent exertion or unusual mental stress.

ALICE OF OLD VINCENNES.
In the village Che-pe-ko-ke,
In the times long past and
gone,
Nestled on the Quabache river,
Lived brave Alice Roussillon.
Not a flower in valley blooming.
Not a songbird in the glens.
Was so fair and sweet as Alice.
Pretty maid of Old Vincennes.

Off she winged the grouse and
partridge
As from covey up they flew;
Or, disporting on the water,
Off she sculled her bark canoe,
And by arrow, swiftly speeding,
As to mark it straightly wends,
Doe and fawn were often tro-
phies
Alice bagged near Old Vin-
cennes.

Ere the battle's smoke o'er Sack-
ville
By the winds were rolled away,
Lithely sped the maid, unin-
dered,
With her flag to crown the
fray;
Then, to mast rope tightly fas-
tened,
Up Old Glory high ascends,
Waving back a kiss to Alice,
Heroine of Old Vincennes.

Mem'ry often us will carry
On the wings of busy thought
Back to early years, when free-
dom
'Gainst its foes in triumph
fought.

Not a spot should now be dearer
To the hearts of Freedom's
friends
Than the village Che-pe-ko-ke,
Home of Alice—Old Vincennes!
